Proposal & Estimate — BrainSmart School Website

Prepared for: Micheal Brian, BrainSmart School
Prepared by: [Your name / business] · **Date:** [date] · **Valid for:** 14 days
Project: Design, development, hosting and launch of the school website
Delivery: 6 weeks from kickoff · **Budget stated by client:** $1,500 – $2,000

> Pricing below is a recommended quote. Edit the figures to suit your rates before sending.

---

1. Understanding of the project

BrainSmart School is newly opened and needs a professional, modern website to attract and inform families. The client asked for:

- **The same pages and structure** as `https://centervillees.gcpsk12.org/`, but "more perfect and modern".
- Delivery in **6 weeks**.
- A **detailed estimate that includes hosting and domain**.
- The domain `https://www.brainsmartschool.edu` (see §6 — not obtainable).
- Text content, logo and artwork supplied by the school's **private project consultant**.

2. What we will deliver

A fast, mobile-first, accessible single-page-application website built with **React**, hosted on **Vercel**:

Area	Included
Structure	All pages mirrored from the reference site — 6 main menu sections, 3 levels of navigation, 40+ inner pages (see `03-sitemap-and-scope.md`)
Home page	Slideshow hero (pause/play, keyboard accessible), 7 quick links, welcome/pillars section, family technology help banner, portal tiles, news, upcoming events
Inner pages	Breadcrumbs, "In This Section" sidebar, consistent template, easy-to-edit content
Calendar	Month / Week / Day views, printable, driven by one data file
Faculty & Staff directory	Search by keyword, first name, last name; alphabetical
News & Announcements	List + individual story pages
Site search	Searches all pages, news and staff
Forms	Contact + admissions enquiry (email delivery, spam protection)
Utility bar	Student & Family portal links, search, social links
Footer	Address, phones, social, legal/accessibility/nondiscrimination links, site map
Design	Modern, branded to the school's logo and colours; responsive for phones, tablets, desktops
Quality	Accessibility best practice (skip link, keyboard nav, ARIA, contrast), SEO basics, auto-generated `sitemap.xml`, performance tuning
Launch	Vercel deployment, domain connection, SSL, redirect `non-www → www`
Handover	Source code, documentation, 1-hour staff training session, 30 days post-launch support

Out of scope (available as add-ons): custom CMS/admin panel, online payments, student/parent login portals, photo/video production, content writing, translation of all content, logo design.

3. Estimate

#	Item	USD
1	Discovery, sitemap sign-off, branding & design system	225
2	Core build — header/navigation, home page, page templates, footer	475
3	Inner pages build-out + content entry (~50 pages)	325
4	Features — calendar, directory, news, site search, forms	225
5	QA, accessibility, SEO, cross-browser & mobile testing	100
6	Deployment, domain setup, launch, staff training	85
	Development subtotal	**1,435**
7	Domain name — 1 year (`.org` , billed at cost; approx.)	20
8	Hosting — 1 year, Vercel Pro (CDN, SSL, analytics)	240
	Hosting & domain subtotal	**260**
	TOTAL (first year)	**$1,695**

Year-two running costs: domain ≈ $15–20/yr + hosting $240/yr = **≈ $260/yr**. Optional support plan below.

> *Third-party prices (domain registrar, Vercel plan) are provider-set and may change; figures are the best estimate at the date of this proposal and are passed through at cost.*

Optional add-ons (not included in the total)

Add-on	USD
Editor-friendly CMS (headless CMS so staff can edit pages/news without code)	300 – 450
Professional school email (e.g. Google Workspace, per user / month, billed by Google)	~6 / user / mo
Language translation widget (e.g. Google Translate / Weglot)	75 (+ provider fees)
Photo gallery / video page	100
Online enrolment form with file upload	150
Monthly support & updates plan (up to 3 hrs/mo of changes, backups, monitoring)	60 / mo

4. Timeline — 6 weeks

Week	Milestone	Needs from client
1	Kickoff, sitemap approval, brand colours & logo, domain registered	Deposit, logo, domain decision, consultant contact
2	Design system + home page + templates ready on a **private preview link**	Content batch 1 (home, About, Academics, hours, contact details)
3	All inner pages built; calendar, directory, news, forms working	Content batch 2 (Parents, Students, Programs, staff list, events, news)
4	Real content & images integrated; **Review Round 1**	Feedback within 3 working days
5	Revisions, accessibility & mobile QA, SEO; **Review Round 2**	Final approvals, remaining documents (PDFs: supply lists, handbook)
6	Launch: production deploy, DNS, SSL; staff training; 30-day support starts	Final sign-off, final payment

The 6-week schedule depends on content arriving by the dates shown. Each week content is late can move the launch by the same amount.

5. Payment schedule

Milestone	%	USD
Deposit on approval	40%	678
Design & core site approved (end of Week 3)	30%	509
Launch / final sign-off	30%	508

Domain and hosting for year one are included in the amounts above and are registered in the school's name / account.

6. Domain — `.edu` is not available

The requested `https://www.brainsmartschool.edu` **cannot be registered** for a K-12 school: the `.edu` top-level domain is restricted to US post-secondary institutions accredited by a recognised accrediting agency (managed by EDUCAUSE). Recommended alternatives:

1. **`brainsmartschool.org`** — recommended; widely used by schools and non-profits. Site served at `www.brainsmartschool.org`.
2. `brainsmartschool.school` — descriptive and modern.
3. `brainsmartschool.com` — most familiar to the public.

Full details: `04-domain-hosting.md`. We register the domain after the client picks one (availability confirmed at that time).

7. Revisions & change control

- **Two** rounds of consolidated revisions are included (Week 4 and Week 5).
- Work outside the agreed scope (new sections, new features) is quoted separately and agreed in writing before work begins.
- Content changes after launch: free for 30 days; afterward covered by the support plan or hourly at $[rate]/hr.

8. Client responsibilities

- Supply all text, logos, images, documents and staff/events information through the private consultant (see `06-content-guide.md`).
- Provide timely feedback (3 working days per round) and a single point of contact.
- Confirm the school holds the right to use all supplied images and content.
- Provide URLs for existing portals (student, family, payments) to be linked.

9. Ownership & rights

Upon final payment the client owns the website content, design and source code delivered, excluding open-source libraries (React, Vite etc., used under their own licences) and third-party services (Vercel, domain registrar), which stay under their own terms. The reference site is used **for structural guidance only**; none of its text, logos or imagery is copied.

10. Assumptions

- K-12 school, English-language site, single campus.
- Content is supplied as text/Word/Google Docs and images ready for web use; light image resizing is included.
- Forms deliver to one email address (via a free form service, e.g. Formspree).
- A CMS is **not** included: edits after launch are made by the developer (or via the optional CMS add-on).

11. Acceptance

By approving this proposal and paying the deposit, the client accepts the scope, timeline, price and terms above.
